

S/N	Day	Time		Title	2nd Space Slides	Trainer	Notes	Duration
		Start	End					
1	1	9:00	10:00	INTRO Workshop agenda, hands-on objectives, Attendance, Final Exercise, SBJ, Team Building		NT		60
2		10:00	10:15	Satellite and Space Ecosystem		NT		15
3		10:15	10:30	Satellite & Space Mission	L1 Satellite and Space Mission	RHN		15
4		10:30	10:45	Satellite Payloads & Missions	L19 (part) Payloads and Examples of Satellite Mission	RHN		15
5		10:45	11:00	Break				15
6		11:00	11:45	Satellite Architecture, Design & Development Overview	L3 Satellite Sub-systems	RHN		45
7		11:45	12:45	Lunch				60
8		12:45	13:15	[Lab] TinkerCad with arduino(Cubesat Digital Twin)	L11 Review and Programming (Workshop Materials), New	RHN	Avionics CubeSat Circuit - Tinkercad	30
9		13:15	14:45	[Lab] Cubesat hands on (inventory list chk, GS assembly)	Slides Day1 (Arduino IDE, driver setup), Day2 (GS assembly, test)	RHN, NT		90
10		14:45	15:00	Break				15
11		15:00	17:00	[Lab] Cubesat hands on (Cubesat assembly)	Slides Day3 (cubesat assembly)	RHN, NT		120
12	2	9:00	10:15	Command & Data Handling Subsystem (CDHS)	L6 Satellite Command and Data Handling	RHN		75
13		10:15	10:30	Break				15
14		10:30	11:00	Thermal Control Subsystem (TCS)	L9 Satellite auxiliary systems_Thermal Radiation	NT		30
15		11:00	11:30	Electrical Power Subsystem (EPS)	L4 Electrical Power System	RHN		30
16		11:30	12:30	Lunch				60
17		12:30	13:45	[SI] AIT, Project Management, mission management	Slides by Space Inventor, L18 Mission management development, L10 Satellite AIT and qualification part 1	NT		75
18		13:45	15:15	[Lab] Cubesat hands on (assembly, programming, initial tests)	Slides Day3 (cubesat assembly), Day4 (OBC)	RHN, NT		90
19		15:15	15:45	Break				30
20		15:45	17:15	[Lab] Cubesat hands on (TM, LoRa)	Slides Day4 (OBC Temperature, LoRa)	RHN		90
21		9:00	10:30	Orbital mechanics	Naga's Slides	RHN		90
22	3	10:30	11:00	[Lab] Space Mission Design (GMAT)	L14 Space Mission Design SW [GMAT]	RHN, NT	Orbit analysis	30
23		11:00	11:15	Break				15
24		11:15	12:15	Orbital mechanics	Naga's Slides	RHN		60
25		12:15	13:15	Lunch				60
26		13:15	15:15	Attitude Determination & Control Subsystem (ADCS)	L8 Attitude Determination and Control System or Naga's	NT		120
27		15:15	15:45	Break				30
28		15:45	17:15	[Lab] Cubesat hands on (Solar Panel)	Slides Day4 (EPS temperature, battery voltage TMs)	RHN, NT		90
29		9:00	10:30	Telemetry, Tracking and Command Subsystem (TT&C)	L7 Satellite Telecommunication System	RHN		90
30	4	10:30	11:00	Break				30
31		11:00	11:45	Structures & cable harness	L5 Satellite Structures	NT		45
32		11:45	12:30	Propulsion Control Subsystem (PCS)	L12 Satellite propulsion	NT		45
33		12:30	13:30	Lunch				60
34		13:30	15:00	[Lab] Cubesat hands on (TT&C)	Slides Day5 (VBatt, Solar Panel, TM real-time plotter)	RHN, NT		90
35		15:00	15:30	Break				30
36		15:30	17:00	[Lab] Cubesat hands on (camera)	Slides Day5 (camera)	RHN, NT		90
37	5	9:00	10:30	[Lab] Cubesat hands on (Reaction wheel test)	Slides Day6 (reaction wheel)	RHN, NT		90
38		10:30	10:45	Break				15
39		10:45	11:15	[Lab] Cubesat hands on (Reaction wheel test)	Slides Day6 (reaction wheel)	RHN, NT		30
40		11:15	11:45	Briefing on Project Report on Mission Design	L20 Mission Design – lets design a satellite mission, L18 Mission management development	NT		30
41		11:45	12:00	[Lab] Cubesat hands on (Mission)		NT		15
42		12:00	13:00	Lunch				60
43		13:00	15:00	[Lab] Cubesat hands on (Mission)		RHN, NT		120
44		15:00	15:15	Break				15
45		15:15	16:45	Industrial Expert Sharing/QnA and Certification presentation		NT	Brenda 3:15pm, Winston 3:55pm	90
46		16:45	17:15	Close up of Mission Design and Cubesat Disassembly	Survey, SB Proj	LL		30
